## LOGISTICS CLUB

On December 14, 2023, a meeting was held at which the "Logists Club" was created under the leadership of the Director of the International High School of Logistics, Doctor of Economics, Professor A.S. Umetaliev. During the meeting they especially noted the importance of training highly qualified specialists in the field of logistics and supply chain management. This event was a great start to community building, in which every student has an important role to play and new ideas are valued.

International Higher School of Logistics of the Kyrgyz State Technical University named after I.Razzakov was established in 2009 as a center of education, science and practice in the field of Logistics and trains bachelors, masters and doctors. The profession of a logistician has become in demand the number of students, practitioners, logistics centers and Associations is growing rapidly. It successfully cooperates with local and foreign universities, logistics companies, which opens up wide opportunities for graduates so study and employment. Logistics is a vector that connects all services of a successful company and therefore it is the he only wayto the top of the administrative hierarchy. Logistics unites countries, continents and people.
