Dear Colleagues!

We invite you to take part in
*The First Eurasian Symposium For Architecture,
Urban Planning and Design «ESAUD – 2023»*

Dates of the event: May 25-27, 2023

Location of the event: 66 Aitmatov Ave., Bishkek, 720044, Kyrgyzstan,
Kyrgyz State Technical University named after I. Razzakov,

Working languages: *Russian, English, Kyrgyz*

PURPOSE OF THE SYMPOSIUM

Create an integrated platform for sharing knowledge and discussing current achievements and challenges in the field of architecture, urban planning and design, taking into account current requirements and trends, such as sustainable development, climate change, environmental safety, digital transformation and economic efficiency.

This symposium will also promote the development and implementation of promising ideas, suggestions and recommendations for the development of innovative approaches and technologies in educational and professional activities, with a focus on interdisciplinary cooperation, social responsibility, inclusive and accessible architecture, urban planning and design.

An important aspect of the symposium will be the promotion of international cooperation and exchange of experience to empower professionals and organizations working in this field, as well as the promotion of common strategies and approaches aimed at improving the quality of life and well-being of people in different regions of the world.

FRAMEWORK OF SYMPOSIUM

A number of events will be organized to exchange knowledge, experience and ideas between participants. The main events of the symposium include:

- ✚ **International Applied Science Conference** (8 sections) - presentations and reports from leading experts and scientists on current issues of architecture, design and urban development.
- ✚ **Exhibition of creative achievements** - demonstration of works, projects and ideas of the symposium participants.
- ✚ **Students Competition and Review of Submissions** – a competition of symposium projects in various categories, to expose talents and compete for recognition.
- ✚ **Round Table** - discussions and exchange of opinions involving representatives of various professional fields and industries, focused on solving specific problems and challenges.
- ✚ **Guest lectures** - presentations by renowned professionals in the field of architecture, design and urban planning, focusing on key trends and prospects for the development of the industry.
- ✚ **Training, seminars, master classes** - events conducted by experienced professionals and recognized experts, dedicated to the development of specific skills and competencies of participants.
